

Low Maintenance Grass For Seed Mixes

Intrigue Chewings Fescue is a leading choice in the rebirth of sustainable grasses for multiple use areas.

Intrigue is high endophytic for improved performance under stressful conditions. This advanced grass maintains the benefits of chewings fescue while also exhibiting top ratings in sun, shade and drought tolerance.

Call your **TMI** representative about this low maintenance grass seed, perfect for low maintenance - limited fertilization and irrigation - conditions.

Intrigue is well suited for seed mixes intended for landscaping, and golf courses.

Chewings Fescues have long been known for their fine leaf texture and to be among the most shade and drought tolerant of the cool season grasses. Chewings Fescues require less frequent mowing than ryegrass, tall fescue or Kentucky bluegrass, and perform well in low fertility areas such as golf course roughs. Intrigue is highly endophytic for improved performance under stressful conditions.

Intrigue distinguished itself in trials with high marks among Fineleaf Fescues for quality, and particularly color:

Its very dark green color allows mixing with today's generation of dark green perennial ryegrasses and bluegrasses. Intrigue's dark winter color and fast spring greenup are among the best available.

KEY BENEFITS:

- **Low Maintenance Requirements**
- **Low Input Requirements**
- **Drought-Tolerance**
- **Turfgrass Quality**
- **Early Spring Green-up**

Industry Leaders

TMI develops, produces and markets turf grass seeds for the United States, North America and more than 20 other countries around the world.

Golf courses, sod growers for sod production and landscapers the world over have found TMI's cool season grasses, warm season grasses, golf grass, and specialty grasses to be state of the art when it comes to color, texture, uniformity, disease resistance and overall performance.

Our extensive network of carefully chosen seed growers produces seeds of the highest quality in the world, with high germination rates and purities that exceed official standards. Our certification, testing and quality controls continue to raise the benchmark for the entire Industry.
